Subject: PRESS RELEASE 07/22/14 - Main St Intersection at 26th Ave SW and N Interstate Dr

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: July 22, 2014

Contact: City Street Division, (405) 329-2524.

MAIN STREET INTERSECTION AT 26TH AVENUE S.W./NORTH INTERSTATE DRIVE

Due to scheduling conflicts by the contractor and the material providers, this project which was previously scheduled to begin this week has been delayed. Weather permitting, Sunday, July 27, 2014, at 7:00 P.M., A-Tech Paving, under contract with the City of Norman, will close the center portion of the intersection of Main Street at 26th Avenue S.W./Interstate Drive to perform concrete panel replacement. Construction crews will work during the night time hours. Each morning by approximately 7:30 a.m., the new sections of concrete pavement on the roadway will be opened to traffic and construction crews and equipment will no longer impede traffic. This sequence of construction will be repeated each night throughout the week until the pavement repairs are completed. Upon completion of the work in the center of the intersection, crews will then begin the same repairs to the outside lanes of the intersection. It is anticipated to have all repairs completed on Friday, August 1, 2014. Barricades will be placed to aid the traveling public. For questions about this project, please contact the City of Norman Street Division at 405-329-2524.
